

BEPeterson

Metal Fabrication Specialists

Heavy metal fabrication specialist of all types of equipment and parts in stainless steels (SS) and high alloys, such as 200 and 300 series SS, 2205 Duplex SS, aluminum, nickel, Hastelloy alloys and carbon steels (CS).

Complete services providing punching, shearing, plasma cutting, forming, rolling, welding and machining of plate from 14 gauge (0.075"/2mm) up to 3/4" (.75"/19mm) thick.

Machining Capabilities

Should your fabrications require manufacturing operations outside the scope of our vertically-integrated in-house machining capabilities, we subcontract with select partners who share our dedication to quality, efficiency and on-time delivery.

In-house machining capabilities:

- G&L vertical boring mill 96" dia x 102" under rail
- G&L vertical turret lathe 52" dia x 42" under rail
- Dainichi CNC turning center with 8" chuck/LNS Bar Feed Quickload II
- Mori Seiki turning centers - SL3-A and DTL-500
- Matsuura CNC vertical machine centers (3) MC-1000's and (1) MC-1500V
- Bridgeport vertical milling machines with 42" table (2)
- Bridgeport vertical milling machine with 48" table
- Bridgeport rotary tables - 12" & 15"
- Van Norman universal milling machine with 48" table
- AWEA gantry CNC vertical machining center
- Hitachi #4 Vertical Milling Machine
- Logan lathe, 18" x 36"
- LeBlond Regal 15" x 36" engine lathe
- Okuma lathe - 22" x 60"
- Cincinnati Engine Lathe - 36" dia x 66" long capacity
- Mini Broach Machine - 5 ton
- Grand Rapids 6" x 18" hydraulic surface grinder
- Marvel 10.5" automatic bandsaw - Series V1 OA with hydraulic shuttle vise
- Kalamazoo horizontal automatic metal cutting bandsaw - AH9AW
- Additional support, testing and inspection equipment
