BEPeterson Manufactures ASME Filter Housing Pressure Vessel for JB Filtration

BEPeterson has recently manufactured an ASME Filter Housing Pressure Vessel to be used in the filtration industry. The pressure vessel is a 60" ID x 95" OAL SA-516-70 Filter Housing designed to 50 PSI @ 150 Deg F. The vessel contains 90 filter element retainers mounted on a fully integrated internal welded assembly. The carbon steel pressure vessel manufactured by BEPeterson was painted with epoxy print.

Matthew Winkler, President of JB Filtration states "These filters offer unique Organic Fuel Filtration for ground based gas turbines sited internationally where the delivered fuel quality is questionable. JB Filtration appreciates the quality and cost control built into BEPeterson pressure vessels, as well as their ability to certify for domestic & foreign markets".

About BEPeterson

Since 1935 BEPeterson has set the standard for custom metal fabrication of heavy-gauge metal parts and equipment. BEP has been relied on by our customers to provide complete engineering, design and project management of the most critical components. We are ISO 9001:2015 certified and ASME certified. Our 90,000 square foot facility with high ceiling bays is one of the largest in the Northeast.

BEPeterson is both a high volume contract manufacturer and a custom metal fabricator. BEP utilizes advanced manufacturing techniques and low cost material procurement to supply consistent and repeatable high quality products to our customers.

BEP manufactures Pressure Vessels, Tanks, ASME pressure vessels, ASME tanks, ASME code and non-code vacuum chambers, ASME vacuum furnaces, filter vessels & housings, skid assemblies, ducting and a variety of industrial general fabrications.

Buyers in the power and utilities, medical, chemical, environmental/filtration and industrial marketplaces choose to partner with BEPeterson because they value the fact that BEPeterson offers more than mere fabrication capabilities. BEPeterson can optimize our customer's requirements for cost, delivery and quality.
