## **BEPeterson, Inc. Supplies Architectural Sculptures for the Pawtucket River Bridge**

BEPeterson is pleased to announce the shipment of four architectural sculptures being installed on the I-95 Pawtucket River Bridge which carries traffic on I-95 between exits 27 and 28. The decorative sculptures were inspired by Pawtucket's City Hall. When the installation is complete the sculptures will be lighted at night and will provide travelers a landmark beacon when traveling through Pawtucket, RI.

This project was collaborative effort between RIDOT, SR Pihl and BEPeterson. BEPeterson was selected and approved by RIDOT for this project based on prior experience with architectural projects and extensive welding and fabricating capabilities. BEPeterson is meeting the growing demands of our customers and providing metal fabrications and contract manufacturing to the highest level of quality.

## **About BEPeterson**

Since 1935 BEPeterson has set the standard for custom metal fabrication of heavy-gauge metal parts and equipment. BEP has been relied on by our customers to provide complete engineering, design and project management of the most critical components. We are ISO 9001:2015 certified and ASME certified. Our 90,000 square foot facility with high ceiling bays is one of the largest in the Northeast.

BEPeterson is both a high volume contract manufacturer and a custom metal fabricator. BEP utilizes advanced manufacturing techniques and low cost material procurement to supply consistent and repeatable high quality products to our customers.

BEP manufactures ASME code and non-code vacuum chambers, ASME pressure vessels & tanks, ASME vacuum furnaces, filter vessels & housings, skid assemblies, ducting and a variety of industrial general fabrications.

Buyers in the power and utilities, medical, chemical, environmental/filtration and industrial marketplaces choose to partner with BEPeterson because they value the fact that BEPeterson offers more than mere fabrication capabilities. BEPeterson can optimize our customer's requirements for cost, delivery and quality.
