BEPeterson, Inc. Manufactures PED Pressure Vessel for Ener-Core

BEPeterson is pleased to announce the shipment of a PED Pressure Vessel for Ener-Core. Pressure Vessels built to the PED standard meet the European Union – Pressure Equipment Directive.

The PED Pressure Vessel is the Thermal Oxidizer which makes up a key component of the Ener-Core Powerstation FP250. This system integrates the Gradual Oxidizer technology with gas turbine technology, offering both pollution control and electricity generation where previously impossible.

Thermal Oxidizer

60" OD x 18.91' OAL SA-516-70 Thermal Oxidizer designed to 55 PSI @
400 Deg F

About BEPeterson

Since 1935 BEPeterson has set the standard for custom metal fabrication of heavy-gauge metal parts and equipment. BEP has been relied on by our customers to provide complete engineering, design and project management of the most critical components. We are ISO 9001:2015 certified and ASME certified. Our 88,000 square foot facility with high ceiling bays is one of the largest in the Northeast.

BEPeterson is both a high volume contract manufacturer and a custom metal fabricator. BEP utilizes advanced manufacturing techniques and low cost material procurement to supply consistent and repeatable high quality products to our customers.

BEP manufactures Pressure Vessels, Tanks, ASME pressure vessels & tanks, vacuum chambers, ASME vacuum furnaces, pressure filter vessels, Filter housings, skid assemblies, Co-gen ducting and a variety of industrial general fabrications.
