Stainless Steel Pressure Vessel – Horizontal Holding Tank BEPeterson

BEPeterson has shipped a 48" OD x 72" 304 L Stainless Steel Pressure Vessel. This is a horizontal holding tank designed for atmospheric pressure @ 150 degrees. The vessel was welded to carbon steel cradle painted with red oxide primer. BEPeterson fabricates Pressure vessels, both ASME code and non-code pressure vessels and tanks.

BEPeterson

About BEPeterson

Since 1935 BEPeterson has set the standard for custom metal fabrication of heavy-gauge metal parts and equipment. BEP has been relied on by our customers to provide complete engineering, design and project management of the most critical components. We are ISO 9001:2015 certified and ASME certified. Our 90,000 square foot facility with high ceiling bays is one of the largest in the Northeast.

BEPeterson is both a high volume contract manufacturer and a custom metal fabricator. BEP utilizes advanced manufacturing techniques and low cost material procurement to supply consistent and repeatable high quality products to our customers.

BEP manufactures ASME code and non-code vacuum chambers, ASME pressure vessels & tanks, ASME vacuum furnaces, filter vessels & housings, skid assemblies, ducting and a variety of industrial general fabrications.

Buyers in the power and utilities, medical, chemical, environmental/filtration and industrial marketplaces choose to partner with BEPeterson because they value the fact that BEPeterson offers more than mere fabrication capabilities. BEPeterson can optimize our customer's requirements for cost, delivery and quality.
